

QGP/CEP research with Fluctuation

- Tomonaga Center for History of Universe- (TCHoU) seminar

11/Dec/2017 (Monday morning)

Institutes of Human Sciences Building B, Room B108 (TCHoU seminar room)

10:00 - 10:30 : Nu Xu (LBNL, CCNU, STAR)

Recent results from RHIC BES-I

10:45 - 11:15 : Marek Gazdzicki (Frankfurt Univ., Jan Kochanowski Univ., NA61/Shine)

Study of onset of deconfinement and search for critical point by NA61/SHINE at CERN SPS

11:30 - 12:00 : Melanie Szala (GSI, Frankfurt Univ., HADES experiment)

Fluctuation analysis in HADES experiment at GSI

12:15 - 12:45 : Aleksandra Snoch (Frankfurt Univ., NA61/Shine)

Charming future of NA61/SHINE

Lunch break

14:30 - 15:00 : Masakiyo Kitazawa (Osaka Univ.)

On the efficiency correction for non-binomial efficiency loss

15:00 - 17:00 : Everyone with Toshihiro Nonaka and all other our group members

Group discussion on fluctuation analysis at STAR, HADES, NA61

12/Dec/2017 (Tuesday morning)

Building 1F, Room 1F201 (High-Energy Nuclear Physics group room)

9:00 - 9:15 : flow correlation in d-Au (Kazuya Nakagawa)

9:30 - 9:45 : 2-part correlation in 200GeV Au+Au (Ryo Aoyama)

10:00 - 12:00 : Everyone

Continuation of the group discussion
